

Amongst thousands of Vodafone employees worldwide, **Adrian Jones** became a quarterly winner in **The Vodafone Way Heroes programme**. In the words of Vodafone's CEO, Vittorio Colao, Adrian has been recognised as a **role model** of what it means to work in the **Vodafone Way**. Congratulations Adrian on this highly **prestigious award!**

With VSPC literally hours away from running out of MSISDNs, **Andrea Fox** and her team rescued a near calamitous situation. The lengthy archiving process was redeveloped yielding **spectacular results**: from only being able to archive 100 MSISDNs a day, the process now archives **5,000 MSISDNs in 20 minutes!** With an average of 4,000 line activations a day, the pool of available MSISDNs is now always **deep and wide**. Many congratulations to Andrea and co!

The **Tallyman to Oracle** Migration Project realised fantastic savings on infrastructure and a phenomenal **200% improvement on performance** without any impact on Business and not a single post-implementation issue. For this outstanding achievement our thanks and congratulations go to **Julian Holleran, Anthony Kaplan and Kouame Yao**.

Achievement

"All that a man achieves and all that he fails to achieve is the direct result of his own thoughts" — James Allen
